

Environmental Tracking Network of North America

ETNNA

September 13, 2009

Rachael Terada

rachael@resource-solutions.org

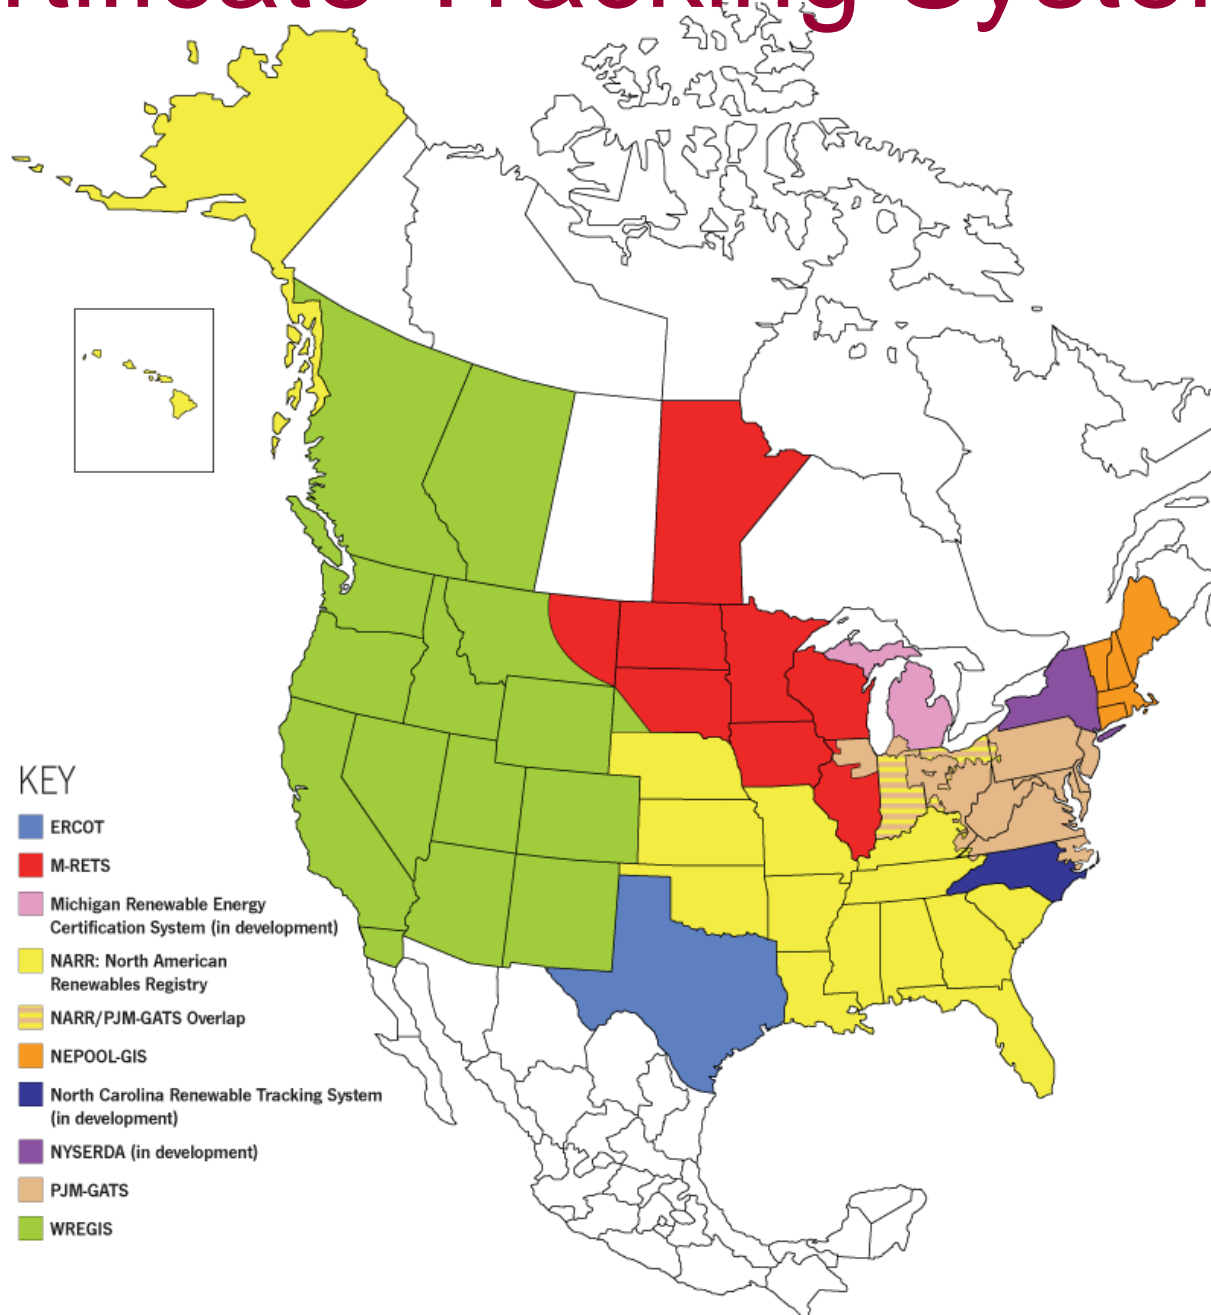

Meeting Overview

- ETNNA
 - Mission & Goals
 - ETNNA Activities
 - Member Participation
- 2009 White Papers
 - Summary of Fed. RES whitepaper
 - RECs & CO₂ – Presentation & Discussion
 - Inter-Registry Transfers – *Tuesday Panel*

ETNNA Mission & Goals

- Create a **forum for collaboration** among existing or emerging systems
Issuing, tracking, or registering
 - **Electric Generation**
 - Conservation Certificates
 - Environmental Attributes
- And foster the development of new systems

Certificate Tracking Systems

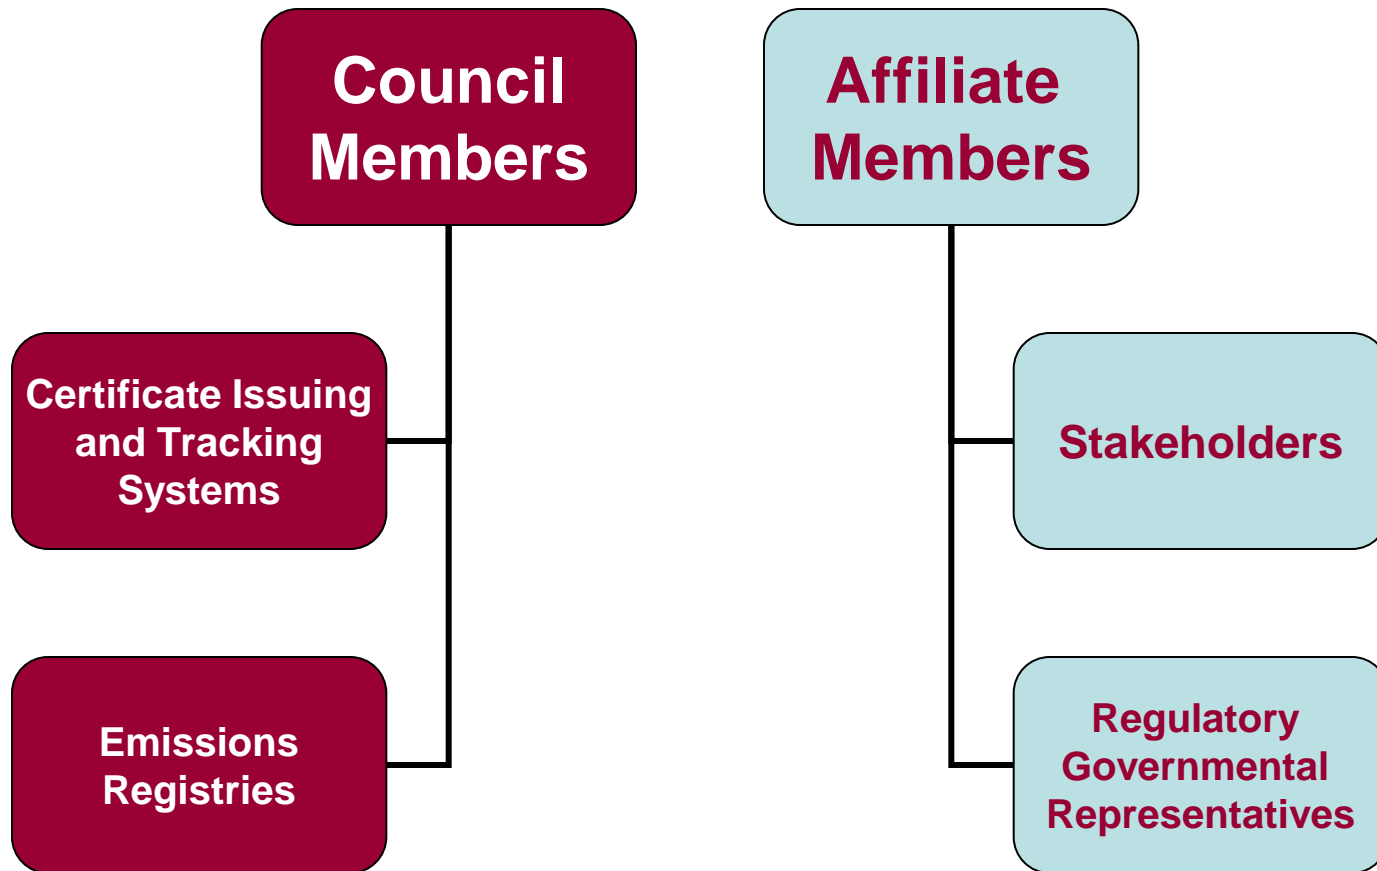

KEY

- ERCOT
- M-RETS
- Michigan Renewable Energy Certification System (in development)
- NARR: North American Renewables Registry
- NARR/PJM-GATS Overlap
- NEPOOL-GIS
- North Carolina Renewable Tracking System (in development)
- NYISERDA (in development)
- PJM-GATS
- WREGIS

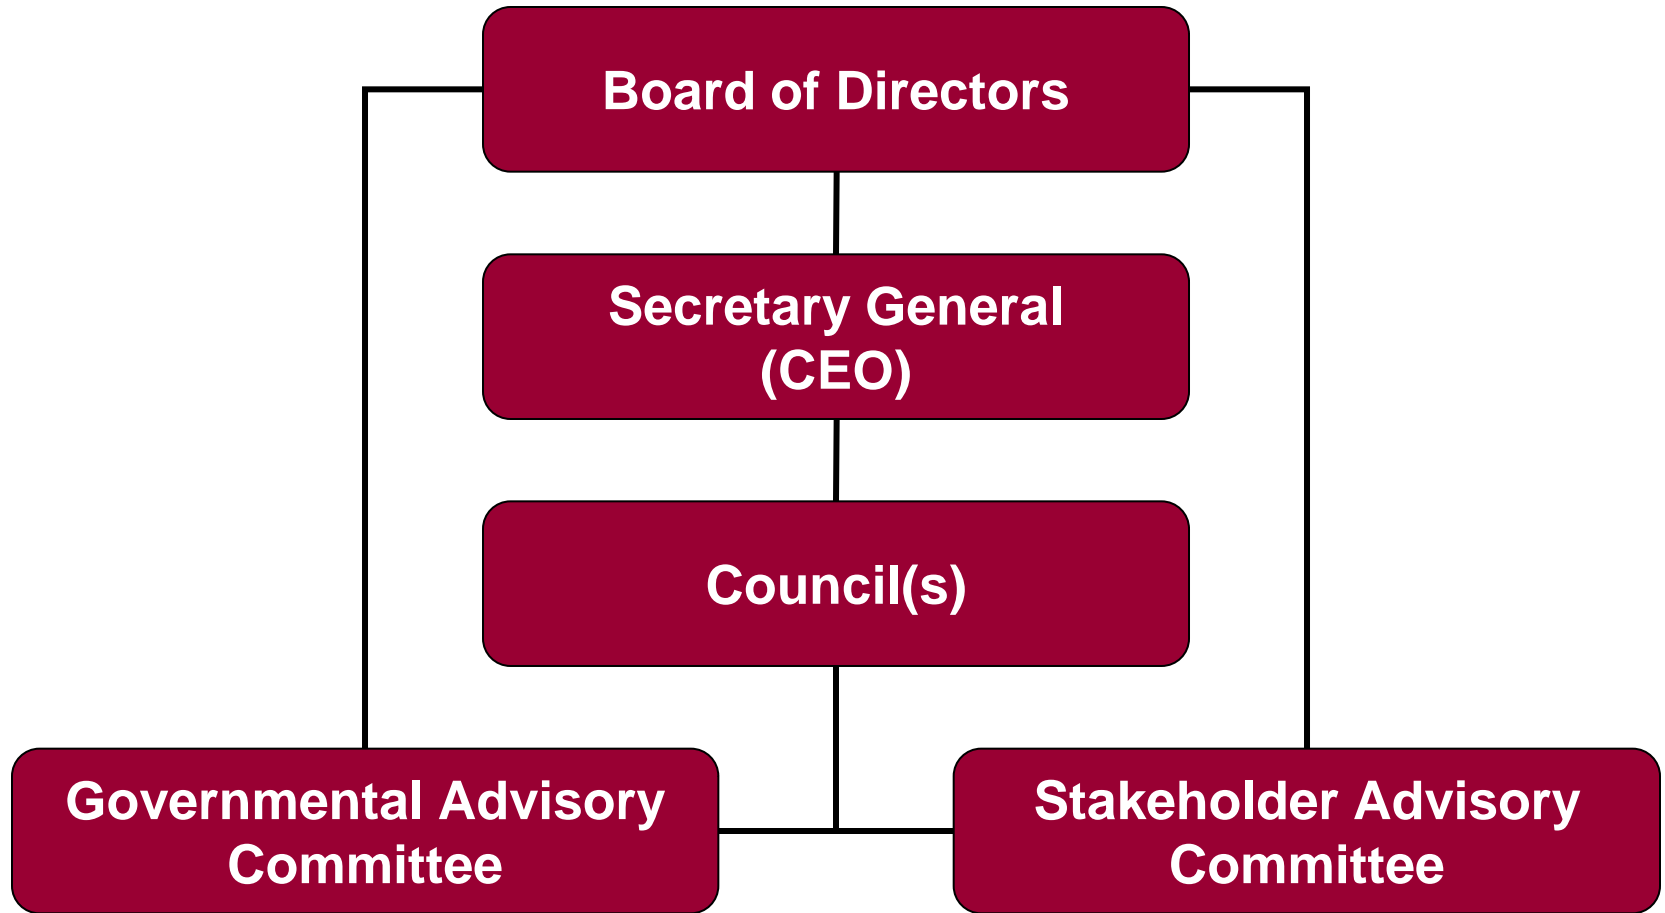

ETNNA VALUES

- Policy and technology neutral
- Ensure RECs are **not** double counted
- Act as **forum** convened on a regular basis to discuss common issues and resolve common problems
- As a **tool** for helping states and the Federal Government achieve their RE policy and program goals
- Can also act as a **tool** for the voluntary market, EE and environmental attribute tracking
